Introduction of Institute of International Affairs

EXECUTIVE DIRECTOR'S GREETINGS

**RAISING
THE BEST TALENT
WHO WILL LEAD
THIS GLOBAL ERA.**

The Institute of International Affairs, Bucheon University, is an institute that develops and implements various international programs to let students of Bucheon University grow as global workforce. The Institute comprises the International Exchange Team and the Global Language Center, reflecting Bucheon University's mission, "A true individual, a professional worker, a skilled technician."

The international exchange team aims to strengthen global capability of students through the culture exchange, student exchange and language courses with sister universities from all over the world. Also, the Global Language Center aims to become a leader in K-education by offering Korean language instruction and cultural experiences to international students.

The Institute of International Affairs, Bucheon University, is committed to the globalization of Bucheon University, and waiting for you who are interested in the Korean language and Korean culture to join us.

**The Executive Director of Institute of International Affairs,
Mo Ran Kim**

Programs of Institute of International Affairs

ACADEMIC DEGREE COURSES

There are various culture experiences and classes for international students.

Global Friendship Camp

B.G.M.(Bucheon Global Mentoring)

Global Speech Contest

Language Exchange Study (English, Chinese, Japanese)

International Student Council

Sport Club

Korean Culture Experience

Job Interview Consulting and Supporting Program for International Students

Korean Speech Contest

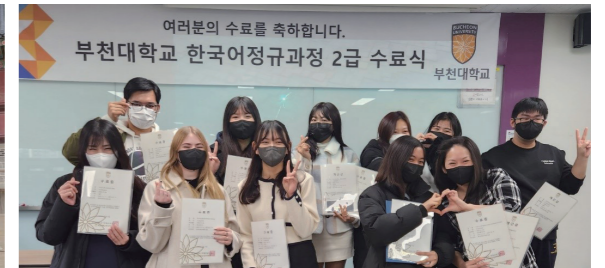

Department Experience Program

FULL-TIME KOREAN LANGUAGE COURSES

Gyungbok Palace Habok Experience

Completion Ceremony

Coming-of-Age Day in Korea

Making a Korean Traditional Lamp

Making a Stamp

The Blue House Tour

Lotte World

Online Culture Experience (Making an Air Freshener)

Playing Korean Traditional Games on New Year' Day

Cooking Korean Traditional Food (Rice-Cake Soup and Sanjeok)

Faculties

FACULTY OF ENGINEERING

Architecture 3 years

A professional architect who creates a beautiful, clean, and safe space should have expertise in the field of architectural designs, constructions, and systems. Our department has produced 6,000 graduates since the establishment of university and fosters capable architectural experts through practical training.

Employment Fields Architectural design, BIM design, structural design, safety examination, quantity surveying, construction site management, official business, maintaining and management of public housing, offices, equipment, etc., government officer related to the architecture, etc.

Certifications Industrial Engineer Architecture, Registered Architect, Industrial Engineer Constructions Safety, Industrial Engineer Building Facilities, BIM Technician, Craftsman Computer Aided Architectural Drawing, etc.

Intensive Major Program 1-year

4th Floor, Gonghak Building,
Main Campus
032) 610-3300

Interior Architecture Design 3 years

Our department is training excellent interior architecture professionals based on the creative design studio education program. Recently, we started to operate various courses and programs according to the demand of convergence design trend.

Employment Fields Interior architecture design, Interior architecture construction, Special brand interior, Interior architecture graphic, Interior design marketing, Design related to coordination, Exhibition, Architecture design, Furniture design, Lighting design, A field of architecture materials, Design researcher of enterprises, etc.

Certifications Interior Designer, Industrial Engineer Interior Architecture, Industrial Engineer Colorist, Craftsman Computer Aided Architectural Drawing, Craftsman Computer Graphics Operation, Auto CAD technician level 1, 2, ITQ Exel Information Technology Qualification, etc.

Intensive Major Program 1-year

2nd Floor, Gonghak Building,
Main Campus
032) 610-3330

Civil Engineering 2 years

Our department has been trying to educate students to be creative and convergence civil engineers since 1979. We produce manpower who can lead future infrastructure construction like smart city, smart engineering work etc. The education areas of civil engineering are like the ollowings: how to plan, design, and construct structures safely and economically like roads, bridges, railroads, tunnels, airports, harbors, etc. and also systems for water and sewage, equipment for prevention of environmental pollution and waste disposal facility.

Employment Fields Roads, Rails (express trains, subways), Bridges, Tunnels, Dams, Nuclear power plants, Rivers, Airports, Harbors, Systems for water and sewage, transportations, Creating an environmental complex, Construction companies, Structural design companies, Safety examination and maintaining management companies, Companies related to heating materials, Public offices related to architecture, Government officers for civil engineer, etc.

Certifications Industrial Engineer Civil Engineering, Civil Engineer, Industrial Engineer Construction Material Test, Industrial Engineer Surveying Geo-Spatial Information, Engineer Surveying Geo-Spatial Information, Industrial Engineer Construction Safety, Engineer Construction Safety, Industrial Engineer Concrete, Engineer Concrete, Disaster Prevention Engineer, etc.

Intensive Major Program 2-year

3rd Floor, Gonghak Building,
Main Campus
032) 610-3310

Information & Communication 2 years

Our department aims to educate for experts on GIGA internet and 5G communication networks for sustainable growth of the ICT industry, networks for diffuse IPv6, and IoT for global IoT enterprises.

Employment Fields Telecommunication engineer, communication device technician, network manager, system engineer, network security specialist (through classes related to networking), system software developer, application software developer, web programmer, IoT development programmer (through classes related to information and communication software and hardware).

Certifications - Network: Industrial Engineer Information & communication, Network Controller, CCNA, CCNP CCIE LINUX Master, etc.
- IOT: Industrial Engineer Information Processing, Engineer Embedded, Certificate of Mobile App Development Specialist, etc.

Intensive Major Program 2-year

12th Floor, Ggumjip,
Main Campus
032) 610-3360

Electronics (Electronic Engineering Major) 2 years

Electronic engineering, as a foundational technology of the Fourth Industrial Revolution, plays an increasingly important role in modern industrial technology and serves as a vital component across all industrial sectors. The department operates with distinguished faculty and state-of-the-art laboratory equipment, offering two specializations—Electronic Engineering and Smart Factory—to train mid-level technical professionals equipped with both theoretical knowledge and practical skills who can actively adapt to the diversity and specialization of advanced electronic industries.

Employment Fields Electronic circuit board design and development, embedded system manufacturing and design, IoT system applications, electronic control and measurement product and system design, circuit design, and semiconductor manufacturing

Certifications Electronic (Industrial) Engineer, Electronic Circuit Design Industrial Engineer, Embedded Industrial Engineer, Electronic Device Industrial Engineer, Production Automation Industrial Engineer, Electronic Calculator Control Industrial Engineer, Semiconductor Equipment Maintenance Technician, Information and Communication (Industrial) Engineer, Information and Communication Facility Engineer, Information Processing Industrial Engineer, Electronic Computer Engineer, Radio Electronic (Industrial) Engineer, Information Technology (Industrial) Engineer, Measurement Industrial Engineer

Intensive Major Program 2-year

2nd Floor, Hangil Building,
Main Campus
032) 610-3340

Electronics (Smart Factory Major) 2 years

Electronic engineering, as a foundational technology of the Fourth Industrial Revolution, plays an increasingly important role in modern industrial technology and serves as a vital component across all industrial sectors.

Employment Fields Manufacturing, intelligent IoT convergence manufacturing, hardware design, software development, data processing, factory automation and smart factory, automated facility operations, automation design, and PLC equipment design and operation

Certifications (National Certifications) Industrial Engineer Smart Factory, Industrial Engineer Automatic Equipment, Mechatronics Engineer, Industrial Engineer Electronics, Electrical Industrial Engineer, Pneumatic Industrial Engineer, Information Processing Industrial Engineer, Big Data Analysis Engineer, (Private Certifications) Smart Factory Expert Level 1/2, Smart Factory Operation Manager Level 1/2, Smart Manufacturing Implementation Professional Level 1/2/3, SQL Expert (Developer)

Intensive Major Program 2-year

2nd Floor, Hangil Building,
Main Campus
032) 610-3340

FACULTY OF ENGINEERING

Electric 3 years

We are doing our best to foster great manpower with good character and creativity who will contribute to society through the traditional theory of electrical engineering and curriculum based on industrial settings like micro processors, computer programming, electric CAD, HMI, new renewable energy etc.

Employment Fields Government-run firms, Construction companies, Electric work and safety supervision companies, LED lighting and display companies, Companies that develop and produce industrial electronic applied equipment, New renewable energy management companies, Companies that construct and maintain railways, etc.

Certifications - Industrial Engineer Electricity, Industrial Engineer Electric Work, Industrial Engineer Electric Railway, Industrial Engineer Fire Fighting Facilities, Industrial Engineer Industrial Safety etc.
- Possible to take a test of Engineer when entering the bachelor's degree course

Intensive Major Program 1-year
4th Floor, Hangil Building,
Main Campus
032) 610-3400

Computer Software 3 years

Our department aims for education to foster experts with theory and practical application skills to develop intellectual software according to the 4th industrial revolution era which needs task competitiveness through the convergence of production industry and ICT.

Employment Fields Application program developer, Web program developer, Mobile developer, Server manager, Database manager, Network manager, Computer security manager, Information system operator, Information system maintenance expert, etc.

Certifications Industrial Engineer Information Processing, Engineer Computer System Application, OCP (Oracle Certified Professional), Electronics related certificates including OCJP (Oracle Certified Java Programmer), MCSE (Microsoft Certified System Engineer), etc. Industrial Engineer Office Automation, Computer Application Level 1 and 2, etc.

Intensive Major Program 1-year
6th Floor, Ggumjip,
Main Campus
032) 610-3450

Computer Information Security 3 years

The Data in computers became a very important asset according to the technological development of internet and information communication and some serious social issues rose due to the absence of the prevention service. Accordingly, the expert on the computer information security that protects the personal or group information became an important future job that is in charge of the request in this era. That is why this department tries to foster experts in computer information security who can confront the 4th industrial revolution, and cultivate decent men who can work as guards protecting the illegal activities on computer information.

Employment Fields Security solution developer, Security control system manager, Security consultant (elementary level), Network system security engineer etc.

Certifications Industrial Engineer Information Security, Industrial Engineer Information Processing, Network controller, Linux Master, Specialist for Information Security (SIS), Certified Information Systems Auditor (CISA), Certified Information System Security Protection (CISSP), Network related certificate like CCNA, CCNP etc.

Intensive Major Program 1-year
9th Floor, Ggumjip,
Main Campus
032) 610-3260

Visual Image & Game Contents 2 years

Our department is educating [webtoon, illustration contents/ Class A] and [visual images, game contents/ Class B] taking advantage of the policy of Korea Manhwa Contents Agency and Gyeonggi Contents Agency according to the industry promotion strategy of the webtoon/ animation contents in Bucheon city and game contents in Gyeonggi province. Also, we operate the university-run enterprise, the Jeppet studio, so that students are able to study and get the hands-on experience on content production at the same time. Students can obtain major and minor by operating the convergence tracks [VR visual contents production course]/ [3D game contents production course]

Employment Fields Webtoon artist, Education contents production companies (An illustration artist, 2D animator), Game production companies (3D modeler/mapper, an UI/UX graphic designer, programmer), 3D animation production companies (3D modeler/mapper, 3D animator, VFX image synthesis & editing), Terrestrial broadcasting companies and cable stations (image editing & motion graphic artist), A VR & AR contents artist, etc.

Certifications GTQ (Graphic Technology Qualification), GTQi (Graphic Technology Qualification Illustration)

Intensive Major Program 2-year
4th Floor, Hangil Building,
Main Campus
032) 610-3470, 3474

Textile & Fashion Business 2 years

Our department tries to foster students as practically skilled experts who are needed from the business fields including textile and fashion planning and design, fashion merchandising and production management in the industry of textile and fashion production, and on-line/ off-line distribution management in the textile and fashion business of a high value.

Employment Fields Textile and fashion trade, Fashion distribution and promotion, Laboratories related to textile and fashion, Fashion promotor and vendor, Fashion planning and management, Production management, and merchandising, shop master, visual merchandiser, Shopping mall establishment

Certifications Industrial Engineer Textile, Industrial Engineer Textile Design, Craftsman Textile Printing, Knitwear Design, CAD, GTQ, ITQ, Industrial Engineer Colorist, Shop Master, etc.

Intensive Major Program 2-year
6th Floor, Hangil Building,
Main Campus
032) 610-3320

Textile and Fashion Business (Ppuri Industry Training Department) 2 years

Ppuri Industry Training Department (selected as Ppuri Industry Skilled Foreign Personnel Training University in 2024) is training foreign personnels who want to work in the industries called 'Ppuri Industry (manufacturing-based industry)'. The students can obtain E-7 visa (working visa) after passing some skill tests with graduation and a chance to reside in Korea.

Employment Fields Textile and dyeing processing

Programs

- Training the basic level of textile and dyeing processing, Theory classes, Practical classes, and Intensive courses step by step
- Operating Korean Language classes (Speaking and Writing) so that students improve Korean language skill
- Running Digital job training courses that can confront the automated dyeing process industry as well as basic office skills
- Implementing the dyeing industry skill certification training for getting visa
- Offering the chances of working in the field through field training and internship program

Advantages of PPuri Industry Training

- Training excellent industry field skills
- Acquiring competitiveness in the Korean job market
- Learning Korean and culture
- Possible to be employed in the area of textile and dyeing processing in Korea

Intensive Major Program 2-year
6th Floor, Hangil Building,
Main Campus
032) 610-3320

FACULTY OF ENGINEERING

IT Convergence Business 2 years

This department operates various state-of-the-art skillful classes like basic business, programming as well as big data with a goal of raising creative and convergent IT business experts who lead the 4th industrial revolution era. We are fostering practical IT business experts by adding management skills and IT knowledge through industrial-oriented training such as big data analysis, ERP, computerized accounting, marketing, DB, programming (python, Java) etc.

Employment Fields Office jobs and accounting for IT business companies, Financial institutes, big data analyst, Online shopping mall establishments, program developer etc.

Certifications Computer Applications, ADsP (Advanced Data Analytics Semi-Professional), Electronic Commerce Manager, Computerized Accounting, Computer-Aided Tax Accounting, FAT (Financial Accounting Technician), TAT (Tax Accounting Technician), Data Processing Certificate, ERP Information Manager, etc.

Intensive Major Program 2-year
7th Floor, Ggumjip, Main Campus
032) 610-3460

FACULTY OF ARTS AND SOCIAL SCIENCES

Business Administration 2 years

Our department is trying to produce practical talent with a goal to foster specialists with on-site practical ability and upright personalities who can contribute to our society dealing with the change of cooperation and society.

Employment Fields Accounting and financial manager, Marketing and marketing manager, Personnel manager, Production manager, Supervisor of distribution and sales etc.

Certifications - Management-Related: Certified Management Consultant, Service Management Ability Test, Certified Distribution Manager, Certified Professional Logistician, Certified Vendor, Quality Management, Certified Labor Attorney, ERP, Trade English, etc.
- Finance/Accounting-Related: Securities Analyst, Investment Counselor, Financial Planner, Associated Person, CPA, Tax Accountant, Customs Broker, Computerized Accounting, Computer-Aided Tax Accounting, FAT, TAT, Accounting Information, etc.
- Computer Systems-Related: Computer Applications, ITQ, MOS, Word Processor, Data Processing Engineer, etc.

Intensive Major Program 2-year
6th Floor, Hangil Building, Main Campus
032) 610-3420

Secretarial Office Administration 2 years

Our department is operating the company-required classes like foreign languages, information technology practice, service practice, and practical communication classes with the goal of fostering administrative talent in the 4th Industrial Revolution era. We cultivate talent with hands-on experiences through classes like secretary's practice, computer skills development, foreign language communication skill development, and business manners that are conducted at high level.

Employment Fields Secretary and business administration fields such as national and international enterprises, government offices, financial institutions, educational and research institutes, medical centers, legal institutions, religious organizations, political organizations, hotels, aviation industries, etc.

Certifications Secretarial Administration, TOEIC, TOEIC Speaking, HSK, Word processor, Computer Application, MOS, ITQ, IT PLUS, Computerized Accounting, Computer-Aided Tax Accounting, FAT, TAT, ERP, SMAT etc.

Intensive Major Program 2-year
5th Floor, Ggumjip, Main Campus
032) 610-3430

FACULTY OF ARTS AND SOCIAL SCIENCES

Tax & Accounting 2 years

Our department is achieving results of producing accountants and government officials on tax and accounting as fostering competent professionals through systematic theory education and field experiences from tax and accounting companies and local taxation offices.

Employment Fields Various enterprises, Government offices, Tax and accounting expert in non-profit organizations, Financial manager and salesperson in banks, Securities companies, Insurance companies etc., Tax and accounting expert in tax and accounting firms, Tax and accounting government official in the national and local governments, Tax accountant, Certified public accountant, Finance and economy manager, Custom broker etc.

Certifications - Computerized Accounting Level 1, Computer-Aided Tax Accounting Level 1/2, Tax Accounting Level 1/2 (State Certified Certification, Korean Association of Certified Public Tax Accountants)
